PERSONAL STATEMENT

I'm an experienced and creative web developer with four years experience in a variety of exciting projects. A level head and rational approach to problem solving combined with a passion for innovative and fresh ideas has led to a portfolio of impressive website solutions.

Technically competent and industry aware - means that each project is undertaken with the most up-to-date and relevant programming foundations available. A strong communicator with the ability to convey ideas clearly with an emphasis on client satisfaction.

Co-founded two start-ups, Xpresso Labs (a web design firm) and thetstory.co (a home decor shoppie).

Why don't we work together?
