PERSONAL STATEMENT

I'm a 21 year old freelance web and graphic designer from Mumbai. I love everything that has to do with web and graphics. I'm very excited at the prospect of following web development as my career.

I have more than 2 years of experience working as a freelancer, and during this time I've worked with my fellow classmates to set up a web design company. We call ourselves Xpresso Labs. I love working with people, specially if they have the same passion I have for what they do.

Why don't we work together? Go futher down to see why I am the guy you need to hire!
